Summary/Description

2015 Beneteau Swift Trawler 34 – Captain-Maintained, Turn-Key Ready

2015 Beneteau Swift Trawler 34 – Captain-Maintained, Turn-Key Ready

Location: Saint Petersburg, FL

Hours: Only 1,200 Hours

Discover the perfect balance of performance, comfort, and efficiency aboard this 2015 Beneteau Swift Trawler 34. Meticulously maintained by her licensed captain-owner and kept on a lift, this vessel stands out as one of the cleanest and most turnkey examples on the market.

Powered by a reliable Cummins QSB 6.7L engine, she cruises efficiently with excellent fuel economy, offering the long-range capabilities and confident handling that have made the Swift Trawler 34 a favorite among serious cruisers.

This vessel has been lovingly cared for, with a consistent maintenance schedule, detailed logbooks, and thoughtful upgrades throughout. With only 1,200 engine hours, she has many adventures still ahead.

The Swift Trawler is an attractively proportioned ‘best seller’, cut out for ocean sailing and comfortable on long cruises. With more than 350 boats on the water and building on unique experiences, such as the well-known Great Loop, she boasts features that make her an undisputed leader in this market.

Key Features:

- Single Cummins QSB 6.7L (425 HP) – Economical and proven powerplant
- Bow and stern thrusters – Effortless docking and tight maneuvering
- Onan generator – Reliable power for extended stays (210 hours)
- Updated electronics – Modern navigation and communication tools
- Spacious flybridge and cockpit – Ideal for entertaining and relaxing
- Two stateroom layout – Comfortable accommodations for cruising couples or families
- Captain-owned and operated – Maintained to the highest standards

Whether you're planning coastal cruises, Great Loop adventures, or weekend getaways, this Swift Trawler 34 is ready to deliver.

This is a rare opportunity to own a beautifully kept, professionally maintained vessel with the pedigree and performance to go the distance.

Notable Upgrades...

1. Freedom X 2000 Inverter. Only need to run the generator while underway to use the air conditioners. All other AC electrical works on the inverter.

2. Hull Shield Ultrasonic Antifouling system

3. Replaced both E-Series Raymarine MDF's with Axioms.

4. Reverso Oil Change System.

5. Ability to divert the freshwater inlet to the Air Conditioners rather than using sea water while at dock. This comes in handy when there's a lot of "stuff" in the water that could overwhelm the strainer. Upgraded strainer to a proper sized brass strainer. The factory strainers are undersized.

6. SiOnyx Nightvision

7. Wired for Starlink

8. Four additional SS cup holders on fly bridge

9. Replaced electric cooktop with LP burners (with electronic gas shutoff)

10. Nebo Link

11. H3O Dinghy cradle on swim platform.

12. Many spare parts.
